

# DDDAC order-and-payment Information Page

Part of my service to the DIY-Community is to share my designs and make for example PCBs available. As I am neither a shop nor a registered company, this is purely trade between private persons and therefore no (VAT) Invoice will be issued.

To order parts which are offered on my Web Site please use the special form which you can download from the "For Sale" Page [www.dddac.de/ddsales.htm](http://www.dddac.de/ddsales.htm)

## There you NEED to fill in:

- Your **full** name and address
- Quantity, Price and description of the parts you want to buy

I will confirm by returning the file by mail with the total amount including shipping cost you will have to pay.

As soon as you actually paid or send money, please fill in the payment information fields and email back to me, so I know it is coming and can prepare packing and shipment.... ☺

I do not accept Credit Cards; PayPal ( [paypal@dddac.de](mailto:paypal@dddac.de) ) can be used on my sales page. Please note I charge the PayPal cost to you! There are 3 also good alternatives left to pay me:

## CASH

Please send cash money (registered or not, the risk is up to the sender)

Doede Douma  
Straubinger Strasse 10  
65205 Wiesbaden  
Germany

## BANK WIRE TRANSFER

Important: In some cases (outside Europe for example) Banks charge transfer costs. If you make use of wire transfer, make sure to instruct you bank that YOU will carry the cost. This saves double cost and delays later on ☺

### German Bank:

Konto nr	6131328
